

# MX900 MICRO TRANSCEIVER WITH TWO-WAY SIGNALING

MX900 Shown

The **MX900 - Micro Transceiver** receives emergency radio signals from and transmits signals to Grace Industries' Man-down Alarms. When emergency signals are received relay closures are used to activate Sirens, Strobes, Automatic Telephone Dialers and other devices to alert others of a potential life safety issue. MX900 may be powered by 12VDC or 120 VAC (with adapter). They easily interface with existing alarm systems and are economical and suitable for use in most locations. MS900-X is compatible with all Grace Telemetry products.

## **MX900 - Micro Transceiver with the Following Outstanding Features...**

- **Relay Closures to activate Sirens, Strobes and Automatic Telephone dialers**
- **Economical and Suitable for Use in Any Size Facility**
- **Easily Interfaces with Existing Alarm Systems**
- **Easy to Install, Use and Maintain**
